*Machine refit in
manufacturer quality*

INDEX G200

*Refit the latest
SIEMENS controller now*

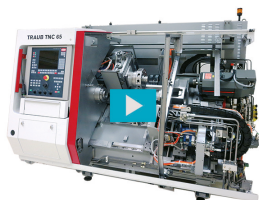

better.parts.faster.

A refit for the INDEX G200 – improve your machine two classes right now

Take advantage of the option to increase the performance and flexibility of your machine. Refit your INDEX G200 with the latest SIEMENS controller and benefit from a wide range of improvements. After the refit, your machine can be connected to the iX4.0 IoT platform, making you ideally equipped for the digitization of your production environment

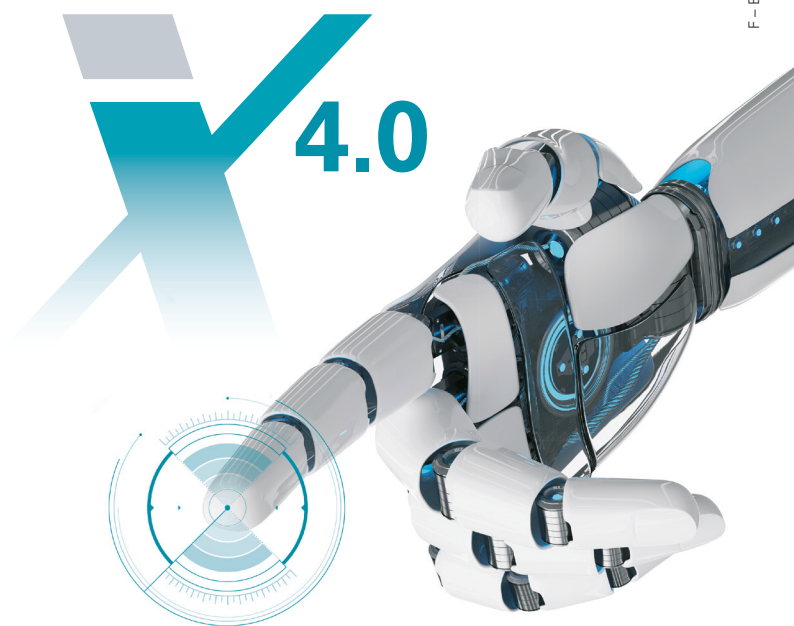

Your refit benefits

- ▶ Complete refit in manufacturer quality
- ▶ Greater productivity and shorter cycle times thanks to the latest control and drive technology: SIEMENS Sinumerik 840D solution line
- ▶ Improvement in machine availability
- ▶ Processes and tools can be retained
- ▶ Use of the current standard software and INDEX options
- ▶ Including ECO-Fluid system with up to 80 bar of coolant pressure
- ▶ Connection to current peripherals, e.g. MBL65 bar loader
- ▶ 12-month warranty
